UNITED STATES AND FOREIGN PATENT AGENCY,

No. 8 Bank Street, Cleveland, Osio.
We are prepared to transact business of every description, relating to Inventions. Drawings, Caveats, Specifications, Patents, Infringements and the Patent Laws. BRAINERD & BURRIDGE,

Glorying in Their Shame. Nearly every family in Charleston is said thave a copy of the following Song : REBELS.

Rebels! 'tis a holy name!
The name our fathers bore,
When barding in the cause of Right,
Against the tyrant in his might,
In the dark days of yore. Rebels! 'tis our family name! Our father, Washington, Was the arch-rebel in the fight,

And gave the name to us-a right Of father unto som. Rebels! 'tis our given name ! Cur mother, Liberty, Received the title with her fame, In days of grief, of lear and shame, When at her breast were we.

Rebels! 'tis our sealed name! A baptism of blood!
The war-ay, and the din of strileThe fearful contest, life for lifeThe mingled crimson flood. Rebels! 'tis a patriot's name!

Instruggles it was given;
We bore it then when tyrants raved.
And through their curses 'twas engraved
On the deemsday book of Heaven, Rebels! 'its our fighting name
For peace rules o'er the land
Until they speak o' craven woe
Until our rights receive a blow,
From foe's or brother's hand

Rebels! 'tis our dying name! For although life is dear, Yet freemen born and freemen ored, We'd rather live as freemen dead Than live in slavish fear.

slicet of pasteboard, enabled Newton to unfold the composition of light and the principle of colors. An eminent foreign ravand once called upon Dr. Wolfston, and requested to be shown over his laboratory, in which science had been enriched by so many important discoveries, when the doctor took him into a study, and pointing to an old tea-tray on the table, containing a few watch glasses, test-papers, a small balance and a blow-pipe, said: "There is all the laboratory I have!" Stothard learnt the art of combining colors by Chardon, Nov. 25th, 1859.

CHARLES SUMNER.

Going into Battle.

You have often wondered whether the men wore their overcoats, knapsacks, haversacks, and carry their blankets, when going into battle. That depends upon circumstances. Some-times, when they are marching, they find themselves in the battle almost before they know it. I remember that on the 18th of July, three days before the battle at Bull Run, some regiments of the army were marching towards Mitchel's Ford, a fording-place on Bull Run, when suddenly the enemy fired upon them, and the men had to fight just as they were, only a great many threw down their coats and blankets and haversacks, so they could fight freely and easily. You also wonder whether the regiments fire regularly in volleys, or whether each man fires as fast as he can. That also, depends upon circumstances, but usually, except when the enemy is near at hand, the regiments fire only at the command of their officers. You hear a drop, drop, drop, as a few of the skirmishers fire, followed by a rattle and roll, which sounds like the falling of a building, just as some of you have heard the brick wall tumble at a great fire.

Sometimes, when a body of the enemy's cavalry are aweeping down upon a regiment to cut it to pieces, the men form in with bayonets charged, while the second rank fires as fast as it can. Sometimes they fire sin four ranks deep, the two front ones kneeling with their bayonets charged, so that if the enemy should come upon them they would run against a The bill for the collection of direct taxes picket-fence of bayonets. When they in the insurrectionary districts has become form in this way the other two ranks load of iron hail.
